

Complete security solutions, from consultation to installation

Security Solution's key objective is to build close customer relationships by concentrating on customer service, dedication to safety, reliability and competitiveness. With a continued long term investment in both our business and people, this has lead directly to an increase in both the range and depth of the products and services we offer.

In order to supply a tailored solution specific to our customer's application, we work closely with our clients from day one, offering an innovative and flexible approach to each application.

Through use of our own engineers we are able to carry out work throughout the whole of the United Kingdom, within all types of industrial and commercial sectors and are in an enviable position of being able to offer a complete design, manufacture, installation and commissioning service for both new and existing products.

Our Service - A Complete Solution

Security Solutions installers of perimeter security equipment. With many years experience in the industry we offer a complete range of services including the design, installation, maintenance and service of new and existing equipment.

We provide a range of high quality, cost effective physical access security solutions that meet or exceed the requirements of todays security concious company.

Whether it be controlled entrance & exit to your site, control of your car parking, additional access points in your perimeter fencing or high security protection of your sensitive areas / products, Security Solutions has the solution to your problem.

We pride ourselves not only on the quality of our workmanship but also on the advice that can be provided from our experienced staff. If you are considering additional security provision we would be delighted to provide with you a no obligation survey and quotation.

If you require more information or a representative to contact you, please call us directly on +44 (0)845 604 8144.
